

I understand that the station I listen to (K-LOVE) might be displaced by an LPFM broadcaster.

Please do not take away the national outreach of K-LOVE.

I like being able to listen to the same things as my family who are not living close to me. It makes it seem like we are closer.

I really enjoy listening to Christian music and I can't get another station that plays the kind of music that K-LOVE plays locally.

I would feel very lonely without K-LOVE to listen to. I know that sounds funny.

We are military and move around a lot. It has been comforting to be able to find the K-LOVE station when we move to a new place.

It is like having friends already there when we get there!

All the driving we do also is made easier by being able to find the K-LOVE stations as we go.

I can still get local warnings on K-LOVE.

Please leave K-LOVE alone.

Thank you,

Lichelle Jenkins
